Proposed Collection Title: The National Institute of Mental Health Data Archive (NDA), NIMH, 0925-0667, expiration date 1/31/2024, REVISION, National Institute of Mental Health (NIMH), National Institutes of Health (NIH).

Need and Use of Information Collection: The NIMH Data Archive (NDA) is an infrastructure that allows for the submission and storage of human subjects' data from researchers conducting studies related to many scientific domains, regardless of the source of funding. The NIH and the NIMH seek to encourage use of the NDA by investigators in the field of multiple scientific research domains to achieve rapid scientific progress. In order to manage access to this data system, NIMH collects information from two categories of NDA users: (1) Investigators who seek permission to access data from the NDA for the purpose of scientific investigation, scholarship or teaching, or other forms of research and research development, via the Data Use Certification (DUC), and (2) investigators who request permission to submit data to the NDA for the purpose of scientific investigation, scholarship or teaching, or other forms of research and research development, via the Data Submission Agreement (DSA). This REVISION request is intended to facilitate NDA users' completion of the DUC and DSA by providing them with clearer guidance and updated background information.

OMB approval is requested for three years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 1,875.

Estimated Annualized Burden Hours
